(You may refer to me as 42 for short. Denizens of your plane can be strangely limited in some ways.)

*This is 42's assistant. 42's speech can be rather obtuse at times, but you may decode it with the help of an extremely useful formula: <https://libraryofbabel.info/book.cgi?>[code]*

*I am told that this form of writing comes more naturally to 42. I beg your patience and hope that you understand.*
