

Dear SERBIAN CONFEDERATION,

I'm sorry to have to learn of this sad event, but I must say it's not entirely unexpected. We all knew something was going on with the Serbians, but we didn't know what. They've been fighting for centuries and they're still at war with each other as well as the [REDACTED]. It seems like their last battle was in 1566. Anyway, I hope you can find peace soon.

I'm sorry to say I don't have much time left with you, but I've been sent some important information regarding your current situation and it's urgent. Please listen carefully:

The Heralds have discovered that the Serbians have been secretly building an underwater city beneath their own country. It's called [REDACTED] and it consists of several islands connected by bridges. The Serbs have already begun constructing a massive wall around the entire place, which will prevent anyone from escaping. They're also using [REDACTED] known as "Tricors" to patrol the island.

I'll try my best to do what's expected of me. I hope you can find some comfort in knowing that your children will be taken care of and they won't suffer from this tragedy.

Sincerely,

Jaimie Rook, age 17
