

*Mansa,*

*It is kindly requested that you cease raiding my peoples.*

*The will of The Speaker has been made clear. All shellfolk that seek safety are Rahastan Citizens. Any that are bound, from this letter forward, are considered stolen citizens of Rahastas. Any raids upon my people will be met in cruelest kind.*

*We now know where the plague came from as well. That you are spared from it leads us to believe some small things.*

*Please send confirmation that you understand our terms.*

*In friendship,*

*Sootscale.*
