

Headmaster,

My additional letter is due to having questions pop up before your reply.

Mages, manipulators of magics. I ask for a simple explanation, that I may better understand the similarities and differences, such that I can provide better things for trade.

Additionally I have been learning much and more about our neighbors. I have a very productive team. Many letters are carried from my families lands to away.

These are uncertain times, and it is good to have trade partners of value. We do not know if you have needs that must be met. Please allow us further knowledge so that we can best assist.
