<http://farragofiction.com/99RoomsSim> = a "infinite" maze of doors. Press "back" to see a message (potential name of writer "BR"). Find all the World Destroying glitches in any given room to find the link below

<http://farragofiction.com/LitRPGSimE/?apocalypse=night> = type enough words to unlock classified information. Other stuff: "Did you know peewee is wasted? And a doom player? if its

hidden peewee won't suggest it if he has access to it. we can toss peewees whole input into here and scan it for whatever we care about.” (dist, bundle.js [sources]) makes me believe peewee is an AI, dev tool, or playable character (probably the last one). look at bottom of applications to find file: LitRPGSimE and go to bottom of document to find JR notes with spoilers for games \(\^v^\)/

<https://scratch.mit.edu/projects/666438974/> = a ZampanioSim Simulator!

<http://eyedolgames.com/JackElope/> = a dating sim where you can find shambling horrors with your face

<http://eyedolgames.com/Eyedlr/> = like Tumblr, but after enough scrolling, it just tells you to stop (also doesn't even work at midnight or on friday).

<http://farragofiction.com/SecurityLog/cctv.html> = enjoy the daily life of human experimentations who are being gaslit into thinking it's a hotel stay (title literally says “warship”, so think what you will)

<http://eyedolgames.com/ZWorld> = different “sims” that all lead to Zampanini (but looky here: an exception :)

<http://eyedolgames.com/ZWorld/?friday=jrwantsin&rideType=Train&name=Coffee%20Shop%20AU:%20The%20Steam&image=/Trains/00090-20230604190728-img.png&themes=twisting.choices.Bakery&obsession=Coffee%20Shop%20AU>). For the love of all that is Zampanio, do not mute, then unmute the eye in the corner. After waiting a few minutes the eye (if you don't mute it) will give you another link that leads to a ouija board

<http://farragofiction.com/NoteBookSim/> = Yongki (green text. And is the upper left picture?) and Captain (aka Jasper?) (blue text.) talking about Vik (I could have sworn the last time I visited this you could click in the upper left picture [link below and “thereflection.png” for the picture itself], and it would show the entire thing in a more normal font)

<http://farragofiction.com/TwoGayJokes/Stories/MurderGameIcons/> (/MonsterIcons [or just /stories if you want random memes, theories, or other stuff]) = has pictures of different characters for Echidna.

<http://farragofiction.com/GrapePie/> = just a funny little thing about making a grape (jelly) pie (also a tiny bit of information about what exactly a Waste is)

<http://knucklessux.com/> = a drawing where your guess is as good as mine (can be found in the Gopher)

<http://farragofiction.com/MurderOnTheScorpiusExpressSim/> = a murder mystery about a shitty version of a murder mystery where the only murder mystery is why there is no murder mystery, and instead is just Dracula avoiding becoming a murder mystery because he's too busy pissing.

<http://farragofiction.com/NagaGirlfriend/> = a DDLG remake except YOU are the one messing with things that you shouldn't, Monika is an actual demon this time, and the end result is *your* death.

<http://farragofiction.com/ACensoredTranscript/> = Parker (speaker 2) and Viktor (speaker 1) making an exchange that looks something like this = Parker: "I want my goods first, then you'll get yours." Viktor pulls out an anime minifigure, which Parker promptly snatches and rambles about like a total nerd, before straightening up after realising they are still in the middle of a deal. Parker: "Good. All right, here's what you wanted." *Casually manipulates the ground (earthbends) to bring up a coffin.* Inside the coffin is a live tied up human, kicking and screaming. Viktor [REDACTED]. Vik and Parker give each other a hug while saying they'd kill the other if they got the chance, then walk separate ways. (Absolute bestie behavior in my opinion)

http://knucklessux.com/PuzzleBox/Secrets/AlDarc/By_%20%5bdata%20lost%5d%20R6.pdf = MHO387 is a memetic (kill?) agent, and this entire document is about a bunch of AMATEURE SCIENTISTS (mainly R6) trying to say certain phrases about MHO387. If it was something nice about MHO387, then they could say it without problem. but R6 offended MHO387 somehow, and I assume they disappeared without a trace. (If this group is aware of SCP protocol, it ASTONISHES me how on earth the 3rd test would be approved for anyone above D class to perform)

<http://knucklessux.com/PuzzleBox/Secrets/OO/PublicDocs/AnIncompleteInvestigationOfNagaOperationalSecrecy.pdf> = an entire scientific study centered around trying to talk shit about someone. What did Naga DO to deserve this? One of the tests is literally just someone saying "fuck you" while thinking of Naga

<http://farragofiction.com/TheTruthAboutAlt/> = Truth (red text) and ALT (black text) having a (one sided for ALT) chat, that leads to ALT glancing at Truth, shapeshifting into the room she's in, and Truth freaking out and calling for the Author in the consol because: "idk why, but suddenly my friend started contorting herself into unnatural shapes after seeing me through the wooden panels :(“

<http://farragofiction.com/ATranscript/> = two (currently unknown to me) people talk about ALT and a court case while playing chess

http://farragofiction.com/AdventureSimWest/?nostalgia=data_expunged_ending.txt = a lot of words I haven't read yet.

<http://farragofiction.com/Arm2> = Oh, so that's what arms are. Going to try finding all of these like Pokemon cards now. As they say; gotta catche 'em all.

<https://github.com/whymirror/why-archive/blob/master/shoes/nobody-knows-shoes.pdf> = found this somewhere (forgot where exactly, but probably in sources somewhere...) and think it's... unique. So i'm putting it here

http://farragofiction.com/TwoGayJokes/Stories/in_which_devona_has_the_fear_of_god_inserted_into_her = sweet sweet information about the Enchidna characters.

<http://www.farragofiction.com/ZampanioSimNorthNorth/> = just the entire secrets file (but gotta go through ZampanioSimNorthNorth>Static>js>Screens> first). Also: “is justifiedRecursion the same person as jadedResearcher? is it an alternate timeline? a shambling horror with their 'face' that replaced them? is it jadedReseracher but transcending jadedness? what happened with the echidna? did justifiedRecursion go in? or are they who jadedResearcher becomes if they refuse the call. :) :) :) dear player. dear, lost, confused little player. I look forward towards your answers :) :) ;)”
(ZampanioSimNorthNorth>Static>js>Screens>Attic>JRRambles.ts) have I ever hinted at how much I hate how convoluted this plot is? Well I am now. Attic in general has stuff to look into too. OH! AND ALL OF ZampanioSimNorthNorth>Static>js>CanvasFuckery TOO. HOW MUCH MORE?!?!?

https://store.steampowered.com/app/929640/Farragnarok/?snr=1_5_1100_1100&utm_source=steamwidget = hmmm hmmm hmmm, nothing that could have anything to do with Farragnarok i see. <http://farragofiction.com/ZampanioSimLegal/> = Wanda and her financial advisor talking about committing time (dimensional?) crimes so that they can make a Zampanio card game without having to deal with the lawsuits.

<http://farragofiction.com/CatalystsBathroomSim/EAST/SOUTH/EAST/NORTH/NORTH/NORTH/NORTH/bathroom> (aka TruthSim)= I saw zampaniosimeasteast on tumblr. HOLD UP WHY IS THERE A “BEES” FILE?!?!? oh nevermind, i found the “bee” file and it looks like some sort of minigame. WHAT IS GOING ON IN AUDIOFUCKERY.JS?!?!? I THINK I JUST FOUND EVIDENCE JR IS GOING THROUGH THEIR VILLAIN ERA. AND WHAT IS THE SCARECROW??? I THINK I'M PERFECTLY HAPPY WITHOUT IT BEING ADDED.

<http://farragofiction.com/DehydrationSim/> = uhhhhh idk Parker wrote this. “In Dehydration Sim, if you Hydrate and return, he discusses how her plastic smile could forgive anything.” (previous link, [shoot hatsune miku and watch the console])

http://farragofiction.com/CatalystsBathroomSim/NORTH/EAST/EAST/SOUTH/NORTH/SOUTH/EAST/SOUTH/store_inventory/zampaniofnfclips/clips/ =just stuff for TruthSim, but i randomly clicked on a fnf video and the loud music scared the shit out of me

<http://www.knucklessux.com/Blog/> = i find this funny and i bet you will too

The different color is to show which links i received from InfiniteDraconicStellarTopology on discord :3 (thank you so much)

<http://farragofiction.com/ZampanioSimEastEast/src/> = Teehee, i ~~stole~~ borrowed this from IDST in discord ^v^ i haven't gone through all the downloads there are yet.

<http://farragofiction.com/CatalystsBathroomSim/EAST/NORTH/EAST/SOUTH/EAST/EAST/NORTH/SOUTH/NORTH/SOUTH/EAST/NORTH/SOUTH/bathroom.html> = alien thing with a weird sound? I guess its some sort of inside joke

<http://farragofiction.com/CatalystsBathroomSim/EAST/SOUTH/NORTH/NORTH/EAST/SOUTH/NORTH/NORTH/EAST/SOUTH/EAST/SOUTH/NORTH/SOUTH/EAST/SOUTH/EAST/NORTH/bathroom.html?stranger=6666> = THE NOISE IS UNBEARABLE AFTER TWO MINUTES (interlopers.js has a list of numbers you can search)

<http://farragofiction.com/FractalShitpost/> = THIS ONE IS EVEN WORSE

<https://numberonelabyrinthenjoyer.itch.io/empty-chambers> = im not willing to download potential viruses

<http://farragofiction.com/CatalystsBathroomSim/NORTH/EAST/EAST/SOUTH/NORTH/SOUTH/EAST/EAST/bathroom.html> = like dollmaker, but in Zampanio *sparkle effects*

<http://farragofiction.com/CatalystsBathroomSim/EAST/SOUTH/EAST/SOUTH/WEST/WEST/WEST/bathroom.html> = uh, toilet minigame? I don't think mine is working properly, none of the pictures are loading. But there is some interesting text about a few Echidna characters (Wanda, Eyekiller, Closer, Neighbor, and NAM) in CatalystsBathroomSim/EAST/SOUTH/EAST/SOUTH/WEST/WEST/WEST>clown.js

<https://github.com/justifiedRecursion> = no clue what this is meant to do, i guess just to be a threatening presence?

<http://farragofiction.com/CatalystsBathroomSim/NORTH/EAST/EAST/NORTH/bathroom.html> = eyes? My brain is tired

<https://github.com/jadedResearcher> = now i may not be very good at Wasting, but i think this may have some useful and recent info

<http://farragofiction.com/CodexOfRuin/> = huh, info on a few characters

<http://farragofiction.com/ZampanioHotlink/> = a bunch of seemingly random pictures

<http://farragofiction.com/LOMAT/> = an old mini game??

So for most of the ZampanioSims, you can go into elements and change the ThisIsNotAGame id to ThisIsAGame, and it will give you a text-based "game" of sorts. Pretty sure it works best in north or northnorth, but i havent bothered to check if there are any differences between the directions.

<http://farragofiction.com/ZampanioSimNorth>

<http://www.farragofiction.com/ZampanioSimNorthNorth/>

<http://farragofiction.com/ZampanioSimEast/> = if you look at the chat, then request for an operator in the customer support line (the HELP button), then you can get passed around through a series of support hot-potato until the Closer eventually calls you (i guess you play as Wodin [Wanda], because that's who the Closer names)

<http://www.farragofiction.com/ZampanioSimEastEast/> =

<http://farragofiction.com/ZampanioSimSouth/> = play as NotAMinotaur

<http://farragofiction.com/ZampanioSimSouthSouth/> = a symbolic maze about literally everyone's journey through zampanio (also probably about the Wanderer (Wanda) too bc of the bold dialogue from the stickers). Does not work on friday.
