Hi David,

I wanted to reach out to you following this morning's class. I really appreciated your contributions to our discussion, but felt that I should follow up with you.

I noticed that, during class, you appeared to consume an entire chocolate cake. Normally I would never be one to police my students' eating habits, but I reviewed the class recording and you finished the whole thing in 43 seconds. I'm pretty sure I watched you unhinge your jaw like some kind of snake.

Is everything going okay at home? Is your jaw okay? Please let me know if I can be of any support.

Best,

gone_farther

Is that about profitable duck farming or punishing ducks for their dastardly, dastardly crimes?

Perhaps they were merely framed by the geese.

NotAMinotaur

The game developers Atari initially released the arcade game in November of 1972. During the development of the game, coin-operated, arcade, test-versions had been released and the coin-boxes came back overflowing.
