

if you wanna listen in to VC but not talk, you can type here

jadedResearcher

weigh in if you can make a voice chat where i screenshare the PowerPoint i scraped from the other server before it went weird

im thinking in either 30 hours or this weekend, i want to get other ppl's thoughts on it

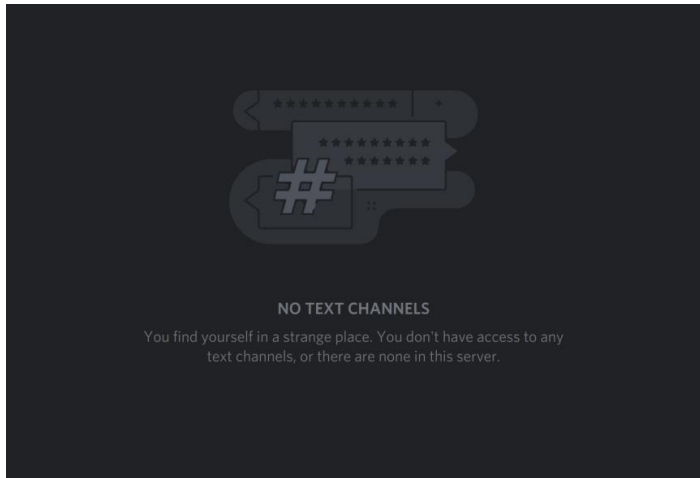

Krysal Tepsyr

is that the server?

like i'm curious, cause i've seen a server with no channels or anything before

usually has something like this

i have this cause i'm in a server with. literally no channels. they deleted all of them and laughed about it being a "void server"

SmeargleUsedHex

How do you even delete "all the channels"?

Krysal Tepsyr

pretty sure the only time i've seen a screen like that is when i've been able to see a channel, but i both can't see the history and can't send a message in it.

discord lets you.

SmeargleUsedHex

Why???

Krysal Tepsyr

idunno

"it'd be funny i think"?

jadedResearcher

bluuuh

maybe they did something besides delete them, then?

this is just one more weird mystery for tge pile i guess

Krysal Tepsyr

maybe.

aurora borealis

whats goin on in there

ahhh

lionfish1212

what's a voice channel?

aurora borealis

like skype but without the camera

lionfish1212

oh

why is everything so gray on discord

aurora borealis

do you know how to turn on light mode?

that might help you

lionfish1212

dark mode is okay but everything is the same color

all gray and gray and gray

and the scroll bar is tiny! i found it last night

I SING THE TRUTH

Sleek modern style bb

lionfish1212

this is bad

jadedResearcher

so tomorrow?

jadedResearcher

so if ppl still wanted to vc???

im grabbing food real quick

but i never actually got a response

should we wait till weekend???

Krysal Tepsyr

i am able to

jadedResearcher

sweet give me a few @here anyone else? even just joining without a mic works, really want to get more brains on this doc i found

Daedalus

:wave:

Daedalus

Give me like 5 mins and I'll hop on

jadedResearcher

kk im ready

gonna start up, if anybody jumps in while we're still going feel free

Daedalus

My mic is bad, so I'll probably be mainly typing

jadedResearcher

fair and valid

Krysal Tepsyr

:ok_hand:

Daedalus

Hi Copper

Copper_Floss

Hey Daed

lionfish1212

i am eating dinner but maybe i will voice chat! i'm all done with my homework today ^.^ stupid essays

aurora borealis

will be on in a bit

Daedalus

Oh! It did that for you too?

I thought it was just a total coincidence

Unless we just share a birthday?

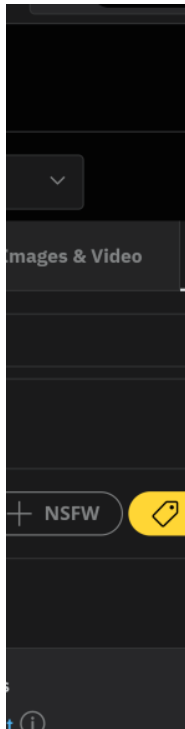

But no, that's not what it showed for me

Krysal Tepsyr

:k_hmmm:

Daedalus

So this is what I see

Krysal Tepsyr

what

jadedResearcher

:eyes:

i swear to [redacted] i am NOT streaming anything like that

Daedalus

I don't know why the aspect ratio is so strange

jadedResearcher

see this is why i had to stream in the first place

something is fucky

Krysal Tepsyr

let me try

jadedResearcher

didn't figure screenshots of the stream itself would be fucky but why am i fucking surprised

Krysal Tepsyr

fuck

that didn't work

Daedalus

I swear, this thing is cursed.

I should try and livestream my playthrough at some point

jadedResearcher

oo yes

Daedalus

So that's how classes are determined?

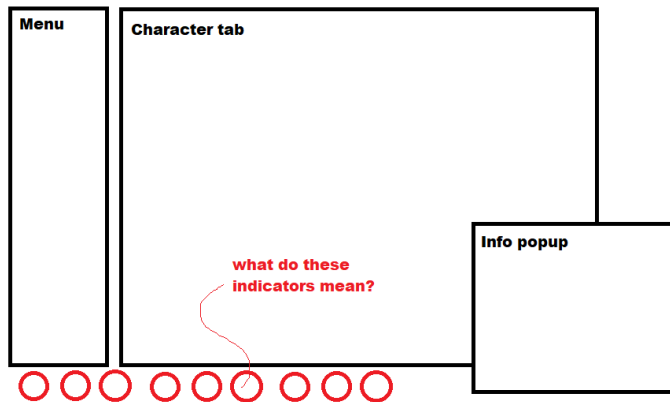

Seems a tad arbitrary, but it makes sense given what I ran into

It's over 9000!

I prefer physics, myself

Wow. my skills didn't look anything like that

Copper_Floss

since screenshots aren't working

jadedResearcher

!!!

that's so smart

Daedalus

Back in a minute- need to run for a bit

jadedResearcher

kk

lionfish1212

this doesnt look like the game i remember....

Krysal Tepsyr

huh

jadedResearcher

Copper_Floss

@Daedalus I'm heading out when you get back, mind tossing a mockup of what your companion screen looks like? espec anything that seems like an odd design choice, might be something there.

jadedResearcher

thanks for joining

lionfish1212

this actually looks a little familiar to me

especially with the magic

btw i have to be muted my mom is here!

yes

thanks!

that is weird

Daedalus

Okay, I'm back

What'd I miss?

lionfish1212

i'm muted and we're going through the power point

Daedalus

Companion screen?

Like, our status?

lionfish1212

justified is zooming in on stuff a lot

Daedalus

I don't have any 'companion screens' so far as mine's labeled

lionfish1212

i didn't remember a companion screen

none of mine looks very much like this

mermaid city!!!!!!!!!!!!

Daedalus

Carparalstead

[gif saying "Well yes, but actually no" and "Can we blur that?"]

Did you just say 'park the apocalypse?'

And they say Rome wasn't built in a day

lionfish1212

o.o

yeah

yeah yeah yeah!!!

that's cool

Krysal Tepsyr

:dog: ???

lionfish1212

yeah!!! exactly

we love it

it looks really good in this graphic

very hd

Daedalus

[Gif of a man walking while flaming]

lionfish1212

that man does not look very safe

Daedalus

I only had one:

'what's your favorite color'

It also asked about the airspeed of an unladen swallow

But I don't think that counts as personal

lionfish1212

mine had a very nice character select thingy! my character had pink hair

and a headband!

where are the pictures????????????????????

im so confused

this is a boring type of game

its so scary!!!

this is bad

i don't like this

attendantWatcher

you don't technically NEED pictures

Daedalus

Mine was almost more of a crafting sim

lionfish1212

games are boring without pictures this is just scary like a scary story

i borrowed a scary story book from the library in 5th grade and read ALL the stories and this is scarier

Daedalus

Someone's typing is really loud on the VC

lionfish1212

why is it so weird

Daedalus

It's so loud

lionfish1212

is it part of the game?

thats weird

Daedalus

Is that.... pokemon?

lionfish1212

i like pokemon

Daedalus

Are you okay?

lionfish1212

i like cyndaquil

he is very cute!

Daedalus

The apocalypse!

Hurray!

lionfish1212

nooo why is it so scary.....

Daedalus

Kill them!

attendantWatcher

I mean, here's a thing about this being scary: When you read a book, you can distance yourself better. But when it's a game, you identify with the PoV character, if only a bit. So, of course, the scary thing happens a little less to someone else, and a little more to you.

Daedalus

Take their stuff!

lionfish1212

i never thought of that attendant

i just like to play fun games not these games

lots of my friends like suuuuper gorey stuff and its just bad

why would you like that?

why is there a knife

Daedalus

Ignore that

I dropped my phone on my keyboard

Ragnarok%

20...18?

lionfish1212

whats ragnarok

Daedalus

What even is time before 2020

lionfish1212

what comic

Daedalus

:rainbow:

Vampires would like a word

lionfish1212

like twilight

twilights sooo dumb right

Daedalus

:eye_in_speech_bubble:

lionfish1212

still a better love story than twilight

Daedalus

:wave:

jadedResearcher

and thats it for me

gonna read up a bit

lionfish1212

bye justified!! that was really weird

Daedalus

Imma head out too.

lionfish1212

was it really zampanio?

Krysal Tepsyr

:wave:

Daedalus

I want to play a bit more with that new knowledge

Everything makes way more and way less sense now

jadedResearcher

i sure hope so, could be that server was trolling us

lionfish1212

it's like we have something realer than everything else now, but it's so weird

it doesn't look like what anyone remembers

jadedResearcher

yeah seriously i didn't expect a game to start up mid powerpoint

lionfish1212

can they even do that?

jadedResearcher

apparently!

whats weird is i've flipped through this powerpiont before and a game never started up!

lionfish1212

huh

that's so strange

jadedResearcher

i know like, undertale noties if you're streaming and changes its content?

maybe somehow this did too?

maybe the key was having an audience

lionfish1212

like on skype?

thats cool

IronicOrnithologist

What did I miss?

lionfish1212

we did a call about a powerpoint that justified found, and then when we got into it after a little while it turned into a game!!

it was really scary :(

IronicOrnithologist

Boring

Mmm Truth is complaining about something right now

Anyways

Anyone want to play Minecraft?

lionfish1212

oh have you seen the new stuff in the update?

it's gotten really popular in the past year

everyones super excited about the game

IronicOrnithologist

Oh yeah

It's all very cool

jadedResearcher

i just can't play anymore after the bees betrayed me

why give me a mechanic where i can have infinite flowers AND infinite ais and then make it so the bees keep randomly vanishing/drowning

lionfish1212

what mods do you use?

aurora borealis

clay soldiers

jadedResearcher

god i can't stand mods

if you can't find a way to break your game vanilla why are you even playing

lionfish1212

faster?

jadedResearcher

???

lionfish1212

mods go faster

jadedResearcher

so boring

anyone can make impossible things happen with a mod

but i will forever cherish figuring out how to kill unkillable npcs in oblivion

Copper_Floss

jadedResearcher

???

di

dis

did

this happen?

IronicOrnithologist

?

jadedResearcher

no worries, just a weird dream!

I SING THE TRUTH

Online classes fucking cringe All my homies hate the Plague

Daedalus

Daedalus

lionfish1212

necroposting is when you post in an area that's already dead just putting in a meaningless notification

this game is incomprehensible

crimsonDestroyer

i'm the only one here

TunnelGhost

the city path is basically impossible unless you've got something like 3+ people

there's a path you can only access with exploits

crimsonDestroyer

some of these paths are so obscure that apparently the only reason they're documented, at all, is because an exploiter disassembled the game to find all the alt paths and documented them what in the unholy fuck
